PROTECTA®

Protecta Flute-Translucent

- Allows for Light
- Lightweight and Versatile
- Ideal for Treated Glass

A translucent, heavy duty protection solution for a wide range of surfaces including windows.

Key Benefits:

- Allows for light transmission
- Maintain natural light sources
- Protection for treated glass
- Excellent impact resistance
- Lightweight but durable

Main Applications:

- Protecting glass in curtain wall construction
- Use in commercial and domestic projects to protect windows from soiling and damage
- Allows you to visually monitor the surface while it's still protected
- Use in fitout projects to protect glass partitions and balustrades while still allowing light through
- Use over stone and marble to monitor and prevent staining of expensive natural stone finishes and other costly finished surfaces

Code	Dimensions
FX1825-TT	1.8m x 1.2m x 2.5mm (350gsm)
FX2425-TT	2.4m x 1.2m x 2.5mm (350gsm)
FX1840-TT	1.8m x 1.2m x 4mm (600gsm)

Temporary surface protection is designed to protect surfaces from superficial damage. Users should ensure that the substrate can take the weight of any equipment or materials being used regardless of protection being in place.

Available loose or packs of 20
