PROTECTA®

Hook Tape

✓ Self Adhesive ✓ Residue free solution ✓ Flexible and Reusable Fixing

Adhesive Hook Tape offers a flexible and reusable solution for fixing protective sheeting to carpets and carpet tiles.

Key Benefits:

- Flexible and reusable
- Peel off adhesive backing that can easily adhere to the temporary protection roll or sheeting.
- Fast and easy method to apply protection over a large area.

Main Applications:

- A means of securing most types of floor protection including polyweave, plastic sheeting, coreflute, matting, and boards to carpeted floors, stairs, and some vertical surfaces.
- Generally applied in 200mm long pieces at approximately 2m apart.
- Used for securing ZipWall® sheeting to carpets or carpet tiles.
- In areas of heavy traffic and equipment use, additional strips of Hook Tape can be used under intermediate joins to help prevent movement of protective sheeting

Important Information:

- It is the responsibility of the purchaser/installer of the Hook Tape to test suitability in a small inconspicuous edge of the carpet prior to use. Generally, it is only suitable for use on nylon/synthetic/acrylic commercial carpets that have a low loop pile It should not be used on any other carpets or surfaces.
