

PROTECTA®

# Boot Dip Mat

✓ Simple & Effective

✓ Hygienic

✓ Yellow edges for high visibility

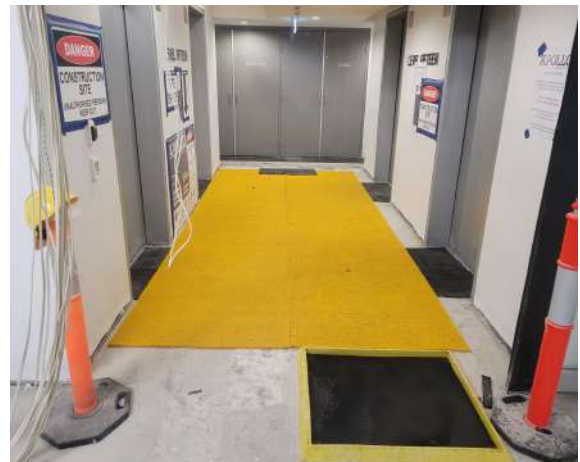

A simple solution for protecting personnel and the environment by preventing the spread of dust, dirt and germs in live and sensitive environments.

### Key Benefits:

- Hundreds of bristles - effective and hygienic cleaning
- Raised walls hold anti-germ detergent or any liquid for hygienic cleaning
- High vis edges for optimal visibility
- Cross grip design on the underside - prevents movement and slip hazards

### Main Applications:

- Used to clean boots on entry and exit in and out of construction sites, hospitals, clean rooms, abattoirs, food processing plants and other live environments.
