# Protecta Film Hard Surface

(Mid-Tack)

✓ Easy to Apply

✓ Trip Safe

✓ Allows Visibility

Protecta Film Hard Surface is a specialised adhesive film that is easy to apply, stays securely in place and provides clear, trip-safe protection for hard surfaces like tile, marble, vinyl and laminate

#### Key Benefits:

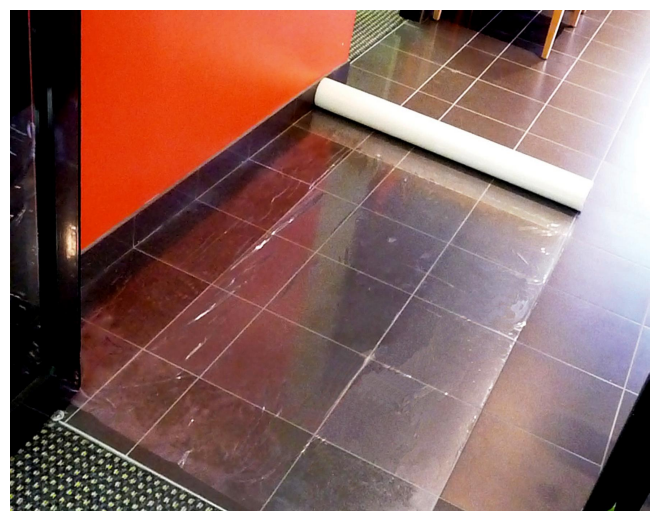

- Specialised self-adhesive technology
- Trip safe – stays securely in place
- Lays tight against walls or skirtings to maximise your total protection
- Clear film allows visibility of the surface being protected
- Non-porous (perfect for smooth tiles)

#### Main Applications:

- Temporary protection for most hard surfaces including; tile, marble and vinyl
- Suitable for laminate surfaces, worktops and certain timber surfaces
- Stable stair protection

#### Important Information:

- Important information and precautions sheet must be read before use
- Not suitable for painted, coated, treated or heated floors
- Not recommended to leave applied for more than 60 days.
