A Multi-Purpose Industrial Grade Protection Solution

With a large range of sheet sizes and being easy to cut, this fluted sheeting protection is suitable for many different applications

Key Benefits:

- Twin Wall Structure - great impact protection for floors and surfaces
- Water-Resistant - great for retaining walls, subsoil membranes or formwork
- Flame resistant and anti-static options - for use in sensitive environments

Main Protection Applications:

- Tile, stone, marble, vinyl or timber floors
- Doors, walls and columns
- Benchtops and cabinetry
- Windows
- Staircases

Temporary surface protection is designed to protect surfaces from superficial damage. Users should ensure that the substrate can take the weight of any equipment or materials being used regardless of protection being in place.

*Minimum quantity applies
