

PROTECTA®

HoardFast

Floor to Ceiling

✓ Quick And Easy To Install

✓ Cost Effective

✓ Durable And Reusable

HoardFast is an innovative system incorporating prefinished panels and tracking for quickly creating temporary or permanent walling in freestanding or floor to ceiling applications.

Key Benefits:

- Quick to install system with durable PVC panels
- Easy to set up and reusable
- Complete with single and double door units and window options
- Easy to clean panels makes the system comply with the highest hygienic requirements
- High gloss finish repels graffiti
- Can be used in both internal and external applications*

*Speak with your Protecta representative for more information regarding external use.

HoardFast

Main Uses & Applications:

- Separate active work areas from public or occupied areas
- Acoustic enclosures, cutting rooms, temporary enclosures, and site amenities
- Dividing work zones from trading areas in supermarkets and shopping centres in many project situations
- Segregation screens in a broad scope of applications including functions and events
- Create temporary access tunnels
- Site Segregation hoardings for short and long term projects
- Temporary or permanent offices

Hoardings must be installed in accordance with Protecta installation instructions

We offer a complimentary hoarding take-off, design and quoting service.

Contact us on 1300 88 12 32 or sales@protecta.com.au to discuss your requirements or submit project information.
