PROTECTA®

HoardFast

Freestanding

✓ Quick And Easy To Install   ✓ Cost Effective   ✓ Durable And Reusable

HoardFast in an innovative system incorporating prefinished panels and tracking for quickly creating temporary or permanent walling in freestanding or floor to ceiling applications.

Key Benefits:

- Quick to install system with durable PVC panels

- Easy to set up & reusable

- Very stable design with support post and base weight

- Compact space saving design allowing for maximum useable floor area in the work zone without the intrusion of bracing

- Complete with single and double door units and window options

- Corner section and panel joiners and tracking connected without fixings

- Panels can be installed horizontally to create a 1.2m high free-standing barrier

- Easy to clean panels makes the system comply with the highest hygienic requirements

- High gloss finish repels graffiti

- Can be used in both internal and external applications*

*Speak with your Protecta representative for more information regarding external use.

QUALITY PRODUCT · TESTED & CERTIFIED

HoardFast

Main Uses & Applications:

- Separate active work areas from public or occupied areas

- Acoustic enclosures, cutting rooms, temporary enclosures, and site amenities

- Dividing work zones from trading areas in supermarkets and shopping centres in many project situations

- Segregation screens in a broad scope of applications including functions and events

- Use in conjunction with the ZipWall® system for an effective floor to ceiling dust seal with the security and privacy benefit of a solid hoarding up to eye level (see image bottom right)

- Create temporary access tunnels

- Site Segregation hoardings for short and long term projects

- Temporary or permanent offices

Hoardings must be installed in accordance with Protecta installation instructions

We offer a complimentary hoarding take-off, design and quoting service.

Contact us on 1300 88 12 32 or sales@protecta.com.au to discuss your requirements or submit project information.
