

PROTECTA®

# Protecta Cube

✔ Captures dust & debris

✔ Fits in lifts & through standard doorways

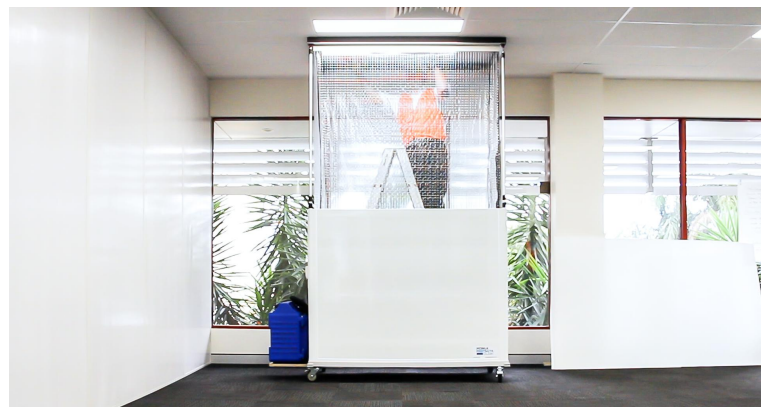

A smart mobile unit for temporary isolation and containment during maintenance and ceiling works.

### Key Benefits:

- One person can deploy the unit
- Fits step and platform ladders
- Use for ceiling heights from 2400mm to 3150mm
- Works in most sloping ceilings
- Fits through lifts and standard doorways
- HEPA unit option with slide out shelf
- PVC components are fire tested to Australian standards
- Clear sides allow for visual contact and light transmission
- Load Rating: 180kg

### Main Applications:

- Ceiling tile or grid replacement
- Electrical wiring and cabling in ceiling
- Lighting install and replacement
- Duct and filter cleaning/replacement
- Ceiling cavity inspection
- Fire suppression and plumbing systems
- HVAC equipment and ductwork

Code	Dimensions
