PROTECTA®

Protecta Board XTRA Form Guard

✓ High Traffic Rated ✓ Reusable ✓ Heavy Duty Impact Resistance

A purpose-built threshold protection system designed to safeguard sliding door tracks and finished thresholds from impact, crushing and surface damage during construction and fit-out works.

Key Benefits:

- High compressive strength and resistance
- Pre-formed U-profile design
- Moisture-resistant composition
- Quick lift-out design
- Reusable
- Reduces trip risks
- Easy to remove and replace

Main Applications:

- Protecting sliding door tracks and thresholds in residential and commercial projects
- Safeguarding floor edge details in high-traffic access areas
- Ideal for use with Protecta Access Ramps for ease of access

Important Information:

The purchaser/user must ensure that an appropriate tape is used in every taping application that will not adversely affect the finished surface or product.
