

PROTECTA®

Protecta Ground Mat

✓ Soft Ground Protection

✓ High Impact Resistance

✓ Easy Handling

The Protecta Ground Mat prevents damage to soft ground from heavy vehicle tyres and treads, while also preventing vehicles from getting stuck in soft ground by providing stable pathways across uneven terrain.

Key Benefits:

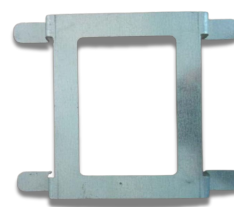

- Made from high density polyethylene plastic (HDPE) for longevity
- Load rating: 80 tonnes (ratings are indicative and dependant on ground bearing capacity)
- Chemical, weather and UV resistant
- Textured surface on both sides for maximum grip
- Features hand holes for easy relocation
- Can be connected to cover larger areas

Main Applications:

- Provides pathways for vehicles across uneven, wet and muddy terrain
- Prevents vehicle tyres from getting stuck in soft ground
- Protects grass, pavements and turf from damage

Code	Type	Dimensions
PGM2211	Heavy Duty Ground Mat	2200mm x 1100mm (~31.5kg)
