

PROTECTA®

Protecta Plywood

✓ Durable and versatile

✓ Strong material

✓ Heavy duty

Introducing the new superior quality Protecta Plywood. New convenient sizing makes it easier to transport and handle, at no extra cost per square metre.

Key Benefits:

- Great impact protection
- Strong and stable material
- Heavy duty protection option can be used in both internal and external applications

Main Applications:

- Floor protection in heavy traffic areas for walkways and ramps
- Temporary pedestrian barrier
- Solid hoarding to contain building works
- Protection of timber, marble, tiles, concrete, vinyl and other sensitive surfaces
- Protection from heavy traffic and equipment such as forklifts and scissor lifts
- Use with Protecta Foam or breathable protection as required
