

Dust Control Solution

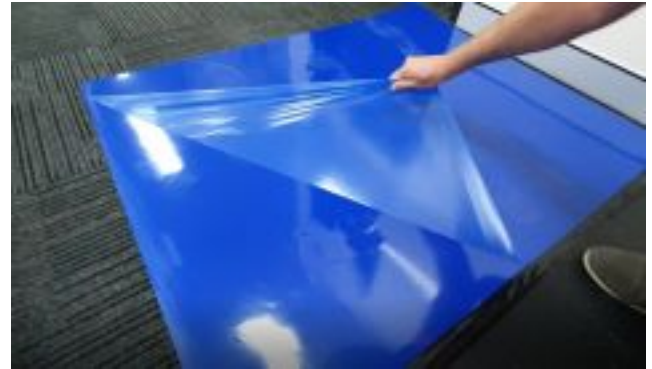

Protecta Tack Mat Setup & Usage Guide

Kit Includes

- 1x Protecta Tack Mat- 30 Sheets

Instructions

1. Expose tack base for securing to location/base* by removing the protective backing layer by pulling on yellow tab indicator.
2. Place in location.
3. Remove top protective layer to expose sticky layer #30.
4. Remove sequential layer by pulling on numbered tab once dust has collected and rendered that layer full.

Recommended Step

Procure a reusable & relocatable Tacky Mat Base* to create a semi-fixed platform for the Tack Mat sheets. This ensures a rigid base and enhances the effectiveness of the system.
