

PROTECTA®

Protecta Shield

✓ Non Abrasive

✓ Water Resistant

✓ Dual Layered Protection

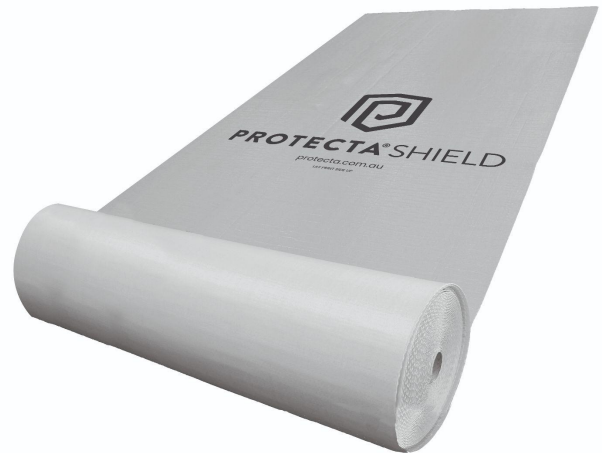

Protecta Shield is designed to safeguard all types of surfaces such as tiles, stone, timber, vinyl, and carpet. Its tear-resistant outer layer and foam underlay safeguard surfaces from damage in DIY, residential and commercial projects.

Key Benefits:

- Convenient compact roll size for easy handling
- Dual layered - Tear resistant polywoven sheeting, bonded to a durable foam substrate
- Scratch and impact protection for sensitive finishes
- Spill resistant

Main Applications:

- Ideal for protecting sensitive and delicate surfaces including tiles, stone, concrete, vinyl, timber, carpet, joinery, benchtops, handrails, and polished floors.
