PROTECTA®

Yellow Masking Tape

✓ Up to 6 months ✓ Indoor & Outdoor Use ✓ Superior Versatility

An ultra thin and high grade tape with a special emulsion acrylic adhesive, that helps reduce cleaning time and cost.

Key Benefits:

- No Residue, mid tack for taping and masking in longer term applications
- Excellent UV stability
- No bleed through with solvent-heavy paints (reducing clean up times)
- Removes without a residue

Main Applications:

- General point masking where fine edge is required.
- Masking of aluminum and steel frames.

Important Information:

- Not recommended for periods longer than 6 months..
